Northwind Bike Co. Employee Handbook

Welcome

Welcome to Northwind Bike Co. This handbook covers the basics of working at any of our shop locations: schedules, pay, time off, and how we expect people to treat each other and our customers. If something here conflicts with what a manager tells you, ask HR to sort it out before assuming either one is wrong.

Hours and scheduling

Shop hours are 9am to 7pm Monday through Saturday, and 10am to 5pm on Sunday. Shifts are posted two weeks in advance on the schedule board and in the scheduling app. If you need to swap a shift, find your own coverage first and then notify your shift lead; swaps are not approved automatically.

Pay and overtime

Hourly staff are paid biweekly by direct deposit. Overtime is paid at 1.5 times normal pay for anything past 40 hours in a week, calculated on actual hours worked, not scheduled hours. Commission on bike sales is paid the following pay period once the sale is finalized and outside the return window.

Time off and conduct

Time off

Full-time staff accrue one day of paid time off for every month worked, up to 15 days a year. Part-time staff accrue PTO on a prorated basis tied to hours worked. Requests for time off should go in at least two weeks ahead except for sick time, which can be same-day with a text to your manager.

Sick leave

Sick leave is separate from PTO and does not need to be requested in advance. If you are too sick to work, call or text your shift lead before your shift starts. Three or more unplanned sick days in a rolling 30 days triggers a check-in with HR, not automatic discipline.

Employee purchase discount

Employees get 20 percent off bikes and 25 percent off accessories and apparel, up to a combined 2500 dollars in discounted purchases per calendar year. The discount is for personal use and cannot be used to buy inventory for resale.

Dress code and conduct

Shop staff wear the provided Northwind polo or fleece during shifts, with closed-toe shoes required on the sales floor and in the repair bay. Be straightforward and courteous with customers and coworkers; harassment or discrimination of any kind is grounds for immediate termination.

Safety and contacts

Workshop safety

Safety glasses are required at the truing stand, the wheel press, and any time you are using a grinder or press tool. Report any injury to your shift lead the same day, no matter how minor, so it can be logged. Repair bay floors get slick with degreaser; wipe spills immediately rather than waiting for end of shift cleanup.

Equipment and tools

Shop tools stay in the shop. Personal tools brought from home are allowed but not required, and Northwind is not responsible for damage or loss of personal tools left on site overnight.

Who to contact

For payroll questions, contact HR at the regional office. For schedule issues, talk to your shift lead first, then the store manager if it is not resolved. For anything involving safety or conduct concerns, you can go straight to HR without going through your manager first.
